# Art in Clothing

---

A CLOTHING DESIGNER must needs be an artist. Ours began his studies in the schools of the Boston Art Club.

The Chinese cut out two Geneva crosses in cloth and sew them together in places, and that is a coat. The ends of this cross are left open for the head, arms and body.

Our method is more carefully studied and more scientifically adapted to the human form. That's why

"No clothing fits like ours."

Browning, King & Co
